

REBUILD HOUSTON INTERACTIVE MAP:

Highlighting the 10-Year Plan for Streets & Drainage

Overview

This viewer allows citizens to interactively review the ReBuild Houston 10-Year Plan for Streets & Drainage. Using this tool, you can view the entire city, zoom in to specific areas or search by address and/or zip code.

NOTE: The FY2015 – 2019 menu options show the service area of projects recommended for construction funding during those fiscal years. The FY2020 - 2024 menu options show the highest prioritized Need Areas that will be studied to develop potential Candidate Projects that will compete for available construction funding in FY2020 - 2024.

How to Use the Viewer

- To view the recommended 10-year plan:

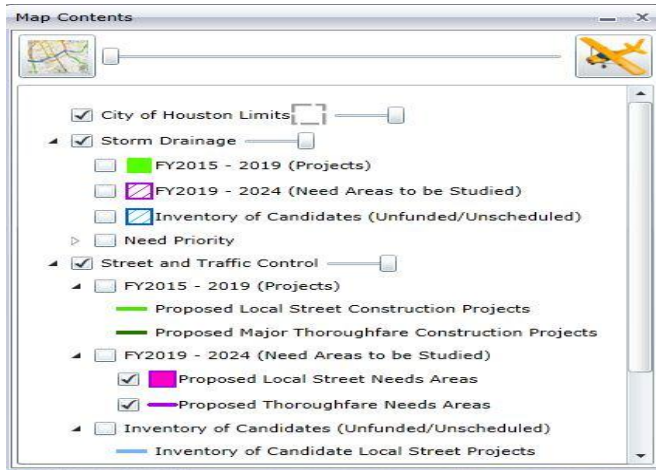

Go to the **Map Contents** window;

Click on the appropriate arrow to expand menu options;

Check all boxes next to the criteria you would like to view.

NOTE: To determine color coding on the map, make sure you fully expand all sections of the **Map Contents** by clicking on each of the arrows (see below).

Expanded View

Collapsed View

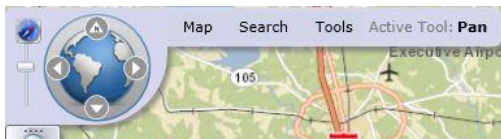

- To search for a specific address or zip code:

Go to the **Find Address** window, fill in the appropriate information (see below) and click submit.

A screenshot of the 'Find Address' window. It contains four input fields: 'Address or Intersection:', 'City or Placename:', 'State:', and 'ZIP Code:'. The 'ZIP Code' field has the value '77002' entered. There is a 'Submit' button at the bottom left.

If you close either the **Map Contents** or **Find Address** windows and would like to reopen them, go to the **Map** and **Search** tabs in the tool bar at the upper left hand corner (see below).

- To access additional information on a specific project (such as pre-engineering documents, etc.):

Click on the information icon  located in the upper right hand tool bar;

Go to the map and find the location of the project you are inquiring about;

Click on the map at that location and a pop-up window will appear with a link(s) to additional documents.

NOTE: You must have the appropriate points of interest (i.e. FY2015 – 2019, etc.) check marked in the **Map Contents** menu or this feature will not work.

Helpful Hints

1. To go to the center most point of this map, click on the globe icon 
2. To drag the map to a specific region, click on the hand icon 
3. To zoom in or out, click on the plus or minus icons 
4. To view the map fully expanded, click on the yellow arrow located next to the ReBuild Houston logo

Glossary

1. *Candidate Project* – proposed infrastructure project which has been approved through the Pre-Engineering review process. Only approved Candidate Projects can be programmed to the CIP.
2. *Capital Improvement Plan (CIP)* – a plan setting forth proposed capital projects and related expenditures to be incurred in the succeeding fiscal year and each fiscal year following, over a rolling period of five years.
3. *Local Streets* – typically refers to residential streets (but may include non-residential); Local Streets do not carry large volumes of traffic.
4. *Need Area* – an area in which existing infrastructure does not meet the desired or acceptable level of service as designated by the City of Houston.
5. *Need Priority* – result of citywide prioritization of existing infrastructure based on the methodology described in the [Capital Improvement Plan Process Manual](#).
6. *Thoroughfares* – major roadways that support general mobility throughout Houston; Thoroughfares carry large volumes of traffic.
